

Malvern Special Families does not aim to exclude children from our clubs unnecessarily.

We will consult with the WCC Infection Control Guidelines for Early Years and Childcare Providers 2014.

Our policy is to encourage and promote good health and hygiene for children in our care. This includes monitoring the children for signs and symptoms of infectious diseases

The decision of the CEO is final when requesting the exclusion of a child for illness or infection. Decisions will take into account the needs of the child and those of the group.

Children with infectious or contagious diseases will be excluded for certain periods. If staff suspect that a child has an infectious or contagious disease, they will request that parent/ carer consult a doctor before returning the child to the club.

We cannot admit sick children to the clubs. If a child becomes ill at one of our clubs, staff will inform parent/ carer or an emergency contact. While awaiting the arrival of parent/ carer the staff will ensure the comfort of the child, taking appropriate action, which would include seeking medical advice if necessary. If the child is in danger, the staff will seek medical advice immediately.

In the case of infestations such as head lice, staff will inform parent/ carer of the problem and advise them how to proceed. Children must receive treatment before returning to the any clubs.

If the child has had sickness or diarrhoea it is our policy of a 48-hour clearance of either symptom before the child may return.

Staff will report any worries about a child's health to the parents/guardians immediately. Parent/ carer are responsible for keeping the Malvern Special Families informed about the child's health.

Malvern Special Families should be informed of any infectious diseases/sicknesses affecting the child e.g. measles, head lice, impetigo, thread worms etc.

In the case of a serious accident or illness occurring then the parent will be contacted immediately, along with any medical help if necessary and the appropriate action will be taken.
